## USB Flash Drives!

2021 Edition

## Give a USB Drive to a Friend, a Loved One, or to Yourself

The nice thing about a USB flash drive, you can fit the entire Ruby or Jack Flanders onto a device the size of your thumb. They make stylish-tech gifts too.

The USBs are identical to our mp3 downloads, it's an excellent sound, but we decided to add something new -

### Hi-Res USB

We now have High Resolution Audio on USB. "High-Resolution" means 16-bit, 44.1 kHz sample rate. For example, the sample rate for our mp3 is 320 kbps (kilobits per second). But with Hi-Res, the sample rate is 1,411 kbps, the sound is identical to our CD.

Note: Hi-Res isn't as convenient as mp3, it will use up about 4 times more space. Hi-Res is ideal for an Audiophile, you will hear much more detail & depth of sound.

For series descriptions, see our catalog. "HR" means Hi-Res.

## Solid Maple Wood ZBS Engraved Boxes!

#1. When you order The Absolutely Complete Jack Flanders or The Absolutely Complete Ruby on mp3, you will receive a maple wood USB. Plus, it will be in a ZBS engraved maple box.

It is truly a fine box, with a tiny magnet that keeps the lid snapped shut. Or, as Little Frieda might exclaim, "Wowie Zowie!"

Note: The maple wood USB you see, is only for the Complete Jack or Complete Ruby on mp3 (because they really cost us a lot).

#2. When you order any HR "Hi-Res" USB, it will be a SanDisk Cruzer Glide (seen in the photo below), and it too will come in a maple box.

We are offering 12 (twelve) Jack & Ruby titles on Hi-Res (85 hours).  
We may add more in the future.
